PROFILE

Full-Stack Web Developer with experience building responsive websites and web applications using Next.js, WordPress, and modern web technologies. Skilled in developing user-focused interfaces, integrating backend functionality, working with databases, and deploying web applications. Also experienced in WordPress development, Elementor, website optimization, Git/GitHub, and AI-assisted development. Passionate about building practical digital solutions that solve real-world problems.

WORK EXPERIENCE

- Faith Herioc Generation Organization**
Wordpress & Shopify Developer 2025
 - Designed and developed responsive WordPress and Shopify websites tailored to client or organizational needs
 - Customized themes, plugins, and store features to improve functionality and user experience
 - Managed website performance, updates, and basic SEO to ensure fast, secure, and optimized sites

PROJECT

AI Network Traffic Visualizer

Python | AI | Data Visualization

- Developed a network traffic visualization tool to monitor and analyze network activity in real time.
- Applied AI techniques to identify traffic patterns and detect potential anomalies.
- Built interactive visualizations to improve network monitoring and analysis.

NAPI FOOTWEAR — E-commerce Store

Next.js | React | JavaScript | E-commerce | Database

- Built a responsive e-commerce platform for browsing and selling footwear products.
- Developed product listings, categories, search, product details, and shopping functionality.
- Integrated backend/database functionality and used Git/GitHub for version control.
